General Information

Plan Report ID Number	[For ONC-Authorized Certification Body use only]
Developer Name	Cedaron Medical Inc.
Product Name(s)	CONNECT
Version Number(s)	v4.2
Certified Health IT Product List (CHPL) ID(s)	15.04.04.2970.Conn.42.01.0.220128
Developer Real World Testing Plan Page URL	https://www.cedaron.com/cehrt/

Justification For Real World Testing Approach

Connect is a certified EMR used for the rehab therapy outpatient domain which supports the certification criteria §170.315(b)(10) Electronic Health Information export. The Real World Testing plan will test the patient export tool an outpatient care setting with measures that support the criteria.

Standard Version Advancement Process (SVAP) Standards Updates

The CONNECT product did not participate in the Standard Version Advancement Process prior to August 31, 2024.

Standard (and version)	Standard updates prior to August 31, 2024
Updated certification criteria and associated product	Not Applicable
Health IT Module CHPL ID	Not Applicable
Date of ONC ACB notification	Not Applicable
Date of customer notification	Not Applicable
Conformance method and measurement/metric(s)	Not Applicable

Measures/Metrics Used in Overall Approach

Certification Criteria	Requirement
§170.315(b)(10) Electronic Health Information export	(i) Single patient electronic health information export.
	(ii) Patient population electronic health information export. Create an export of all the electronic health information that can be stored at the time of certification by the product, of which the Health IT Module is a part.
	(iii) Documentation. The export format(s) used to support paragraphs (b)(10)(i) and (ii) of this section must be kept up-to-date.

Description of the Measurements

Measurement/Metric	Description
Measure 1	This measure will show that the Export tool can create an export file of all the PHI for a single patient or all patients of the organization by an authorized user. Over the collection period, we will record the number of times a user is able to successfully perform a single patient as well as number of times a user is able to successfully perform an export on the patient population.

Associated Certification Criteria

Measurement/Metric	Associated Certification Criteria	Relied Up Software (if applicable)
Measure 1	§170.315(b)(10) (i) Single patient electronic health information export.	Not Applicable
	§170.315(b)(10) (ii) Patient population electronic health information export.	
	§170.315(b)(10) (iii) Documentation. The export format(s) used to support paragraphs (b)(10)(i) and (ii) of this section must be kept up-to-date.	

Justification for selected measurement/metric

Measurement/Metric	Justification
Measure 1	This measure demonstrates that a single patient EHI and/or patient population's EHI can be successfully exported only by an authorized user. The format the export file is also up to date to the documentation published.

Care Setting

Care Setting	Justification
Outpatient Care	The product is an EMR designed and marketed for the rehab outpatient settings only. Therefore, this is only outpatient care setting is used for the Real World testing.

Expected Outcomes

Measurement/Metric	Expected Outcomes
Measure 1	<ul style="list-style-type: none"> Only authorized users can access the patient export tool. The user has permissions if enabled for the user roles in the system. The user is able to export a single patient with the tool at any time in a timely manner. The export file(s) created is electronic and in a computable format with the hyperlink of the export's format included with the exported file(s). The format is up to date. The user is able to export all patients with the tool at any time in a timely manner. The export file(s) created is electronic and in a computable format with the hyperlink of the export's format included with the exported file(s). The format is up to date.

Schedule of Key Milestones

Key Milestone	Date/Timeframe
Real World Testing plan submitted to Drummond	November 1, 2024
Start of Real World Testing according to the measure	January 1, 2025
Work with customers using the tool to collect data as laid out by the plan. Identify any potential issues that may arise as well.	Quarterly, 2025
End of Real World Testing	December 31, 2025
Compile and analyze Testing results	January – February, 2026
Submit Real World Testing report to ACB	February 1, 2026
